**meet min standard*

“review” is just a new feature of a **familiar** system....

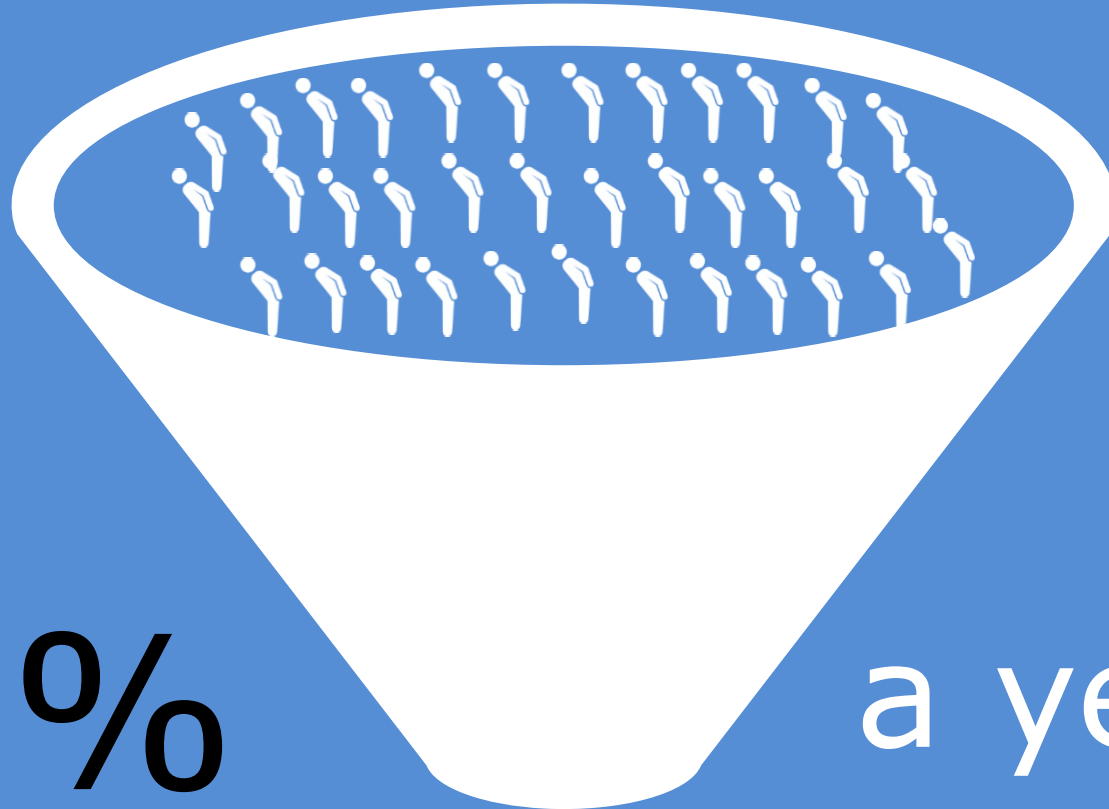

My review

annual assessment of ePortfolio

so 6000 pharmacists

20%

a year...

Year 5
Year 4
Year 3
Year 2
Year 1

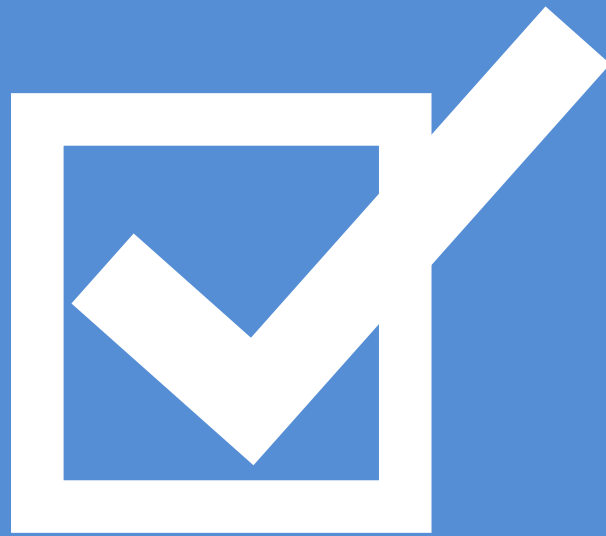

MINIMUM STANDARD

Peers (SDG) set the Bar

to view progress

...but it's **not** just...

...an **automated** review...

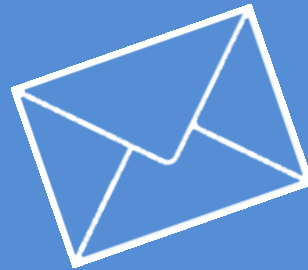

peer review - qualitative

standardised
feedback

- future actions?
- learning activities?
- duplicated cycles?
- plagiarism?

“

Hello...

*I'm just calling to let you know that **my name is not Karen, it's Thomas.** It was in that email you just sent me about the submission deadline...*

”

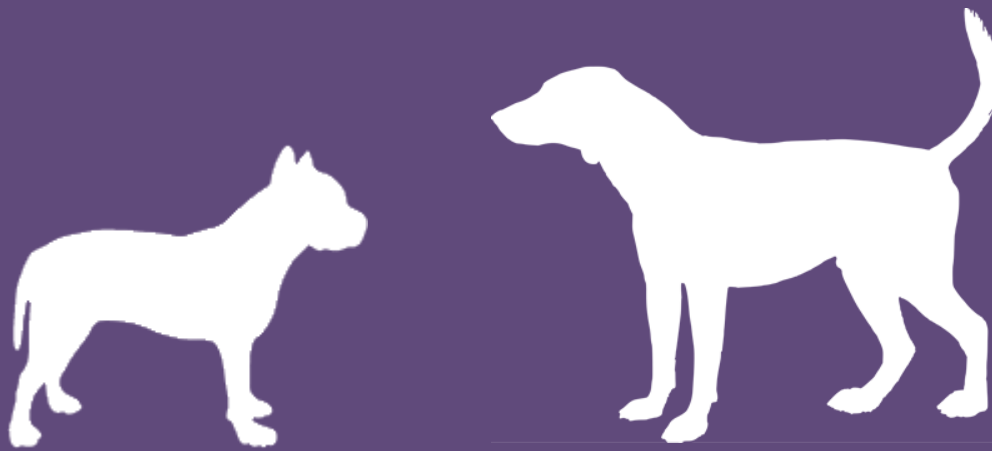

“Easier than I thought.”

“When will we know the
outcome?”

“No issues so far...”

“Good
support...”

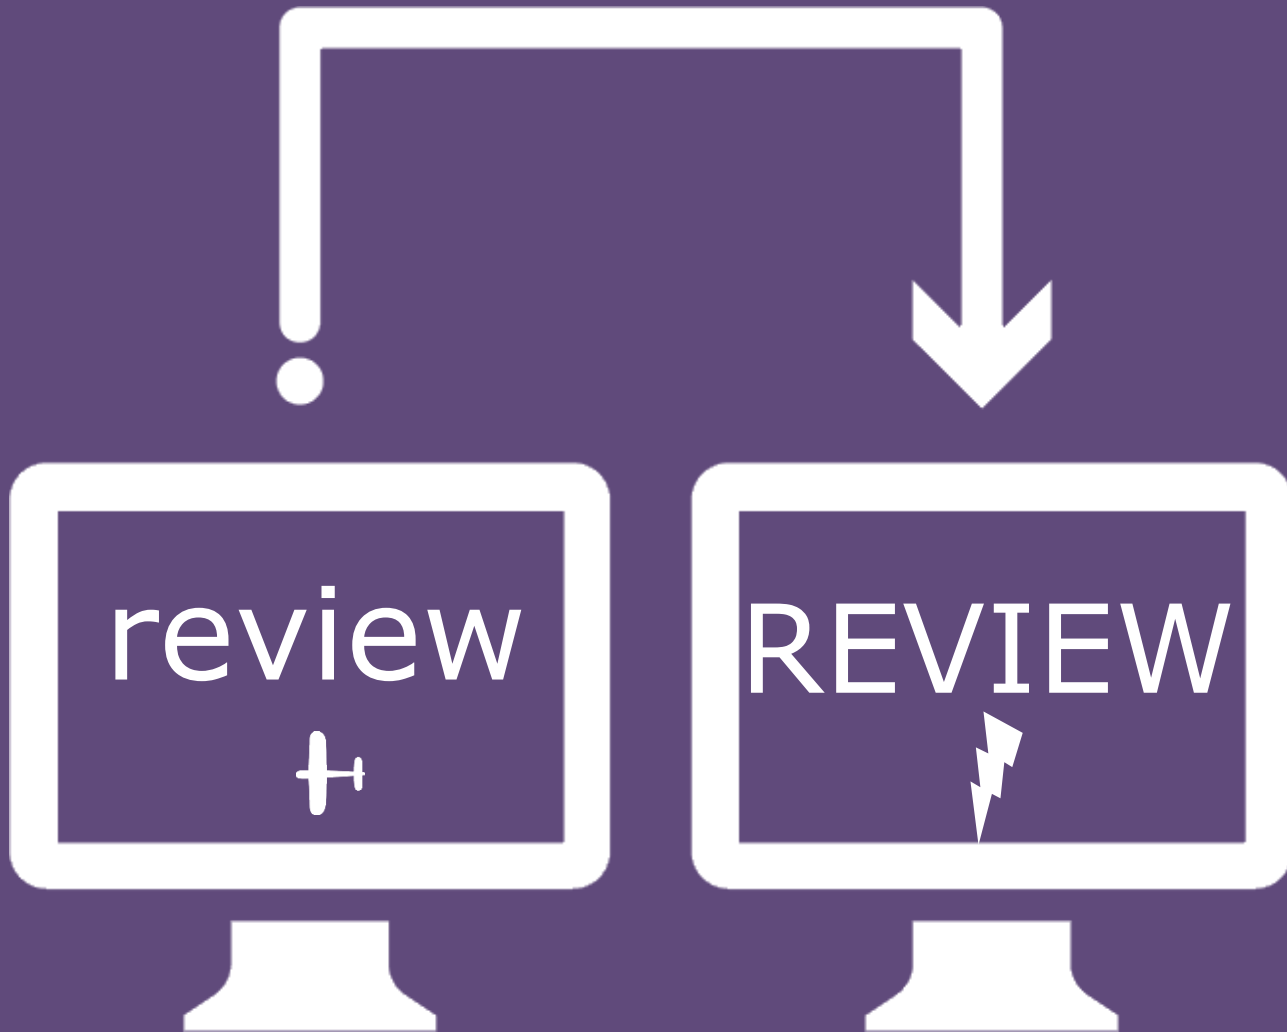

**assessment mechanism contiguous
with existing user experience**

...run all possible review
scenarios (using dummy
user accounts)

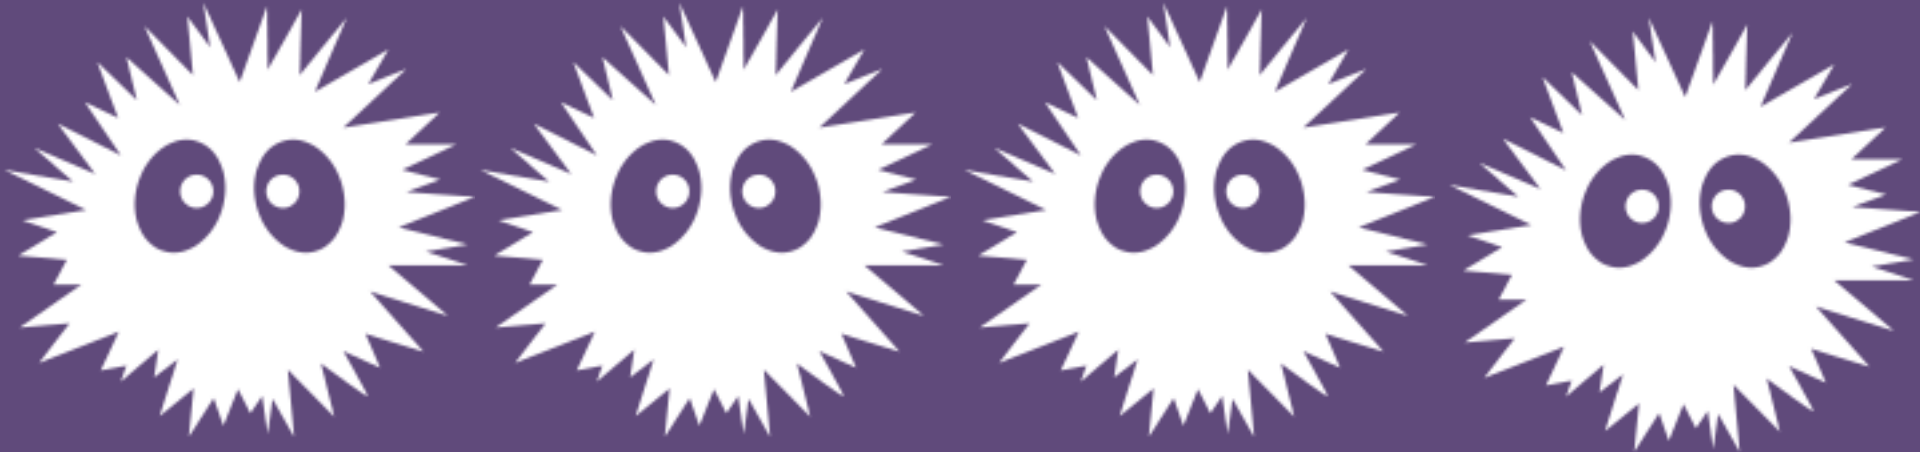

...keep it **real**...

Best as **iterative** process
